Premium Audio

Add integrated global toll -free telephone calling to your Webinars. You can select one or multiple countries (70 countries available) for premium toll-free audio.

Easy set-up and registration:

Customize and brand your emails and registration forms. Flexible registration management, and multiple integration options for your CRM systems.

Present with confidence:

Focus on your content, not the technology. Zoom is full-featured, simple and intuitive for presenters and attendees from any device including desktop, laptop, mobile devices, Zoom Rooms and H.323/SIP systems.

Give a better, more interactive experience:

Zoom's video conferencing quality and reliability means everyone has a seamless experience. Unique multimedia and interactivity features lead to better sales.

Generate more leads:

Reach more people and grow your business with up to 10,000 attendees. Identify the hottest leads with reporting and analytics. Easily record your webinar and post it everywhere to build your market.

“Whether we’re running team meetings or presenting a webinar, we find Zoom to be intuitive and easy to use. This translates into less support needed from our staff and less frustration for our customers. The performance has been stellar at a fraction of the price of our old solution.”

Jeanne Pelletier | **COO, Beyond Indigo**

“Zoom calls always work - no matter what. So don't be fooled by its low cost --- Zoom is a powerful collaboration service worthy of serious consideration. And for what it's worth ... we use Zoom almost every day.”

Ira Weinstein | **Wainhouse Research**

About Zoom

Zoom unifies cloud video conferencing, simple online meetings, group messaging, and a software-defined conference room solution into one easy-to-use platform. Our solution offers the best video, audio, and wireless screen-sharing experience across Windows, Mac, Linux, iOS, Android, BlackBerry, Zoom Rooms, and H.323/SIP room systems. Founded in 2011, Zoom's mission is to make video communications frictionless.
